

CPD Questionnaire

DESIGNING IN DECORATIVE CONCRETE

Presented by Holcim

1. How many colour variations are acceptable in Class 2?
2. Does design slump have any effect on colour or stone exposure?
3. How should you specify exposed concrete?
4. What is the difference between burnished and polished concrete?
5. How many different finishers are there for polished concrete?
6. Will the slip ratings change the look of honed concrete?
7. Why do we refer to a P slip rating as opposed to the R rating?
